 [yifen9](#) |  [yifen9li](#) |  [yifen9](#)

Trento, Trentino–Alto Adige, Italy

EDUCATION

• University of Trento

Bachelor Degree in Computer Science (L-31)

◦ GPA: [28.75/30](#)

Sep, 2024 - Current

Trento, Italy

PROJECTS

• ORCID Dataset: A dataset providing hiring flow of global scholars

Tools: [Python, Matplotlib, Numpy, NetworkX, SpringRank]

- Implemented a dataset for analyzing global scholar mobility
- Analyzed university education inequality via SpringRank

Apr - May, 2024

[[Presentation](#)] [[k](#)] []

• Otiria: An end-to-end platform for turn-based game AI training

Tools: [Julia, OCaml]

- Otiria consists of three parts: Itera, Liria and Oriva. Itera is the backend of the game engine with Liria as its frontend, while Oriva serves as the main framework combining the whole training process

Apr, 2025 - Current

[[Julia\(Itera.jl\)](#)] []

• Giordle: A Wordle-like game made in Godot

Tools: [Godot, GDScript]

- Giordle is a Wordle-like game which allows you to play Wordle based on WhatsApp chat history

Jul, 2025

[] []

• UniTN Online Judge: A serverless online judge platform

Tools: [Cloudflare, SvelteKit, TypeScript, Terraform]

• UniTN Problemset: A static choice problem online judge platform

Tools: [Elm, Typescript, Tailwind CSS, Bun, Vite]

- A static website includes problems generated with integration from Notion

Aug, 2025 - Current
